

Thank you for choosing to allow PacWest Team to assist in the care and management of your residents. It is our goal to become your preferred provider team by providing a consistent and available healthcare resource.

Upon a patient choosing PacWest, they should complete and return a "Patient Enrollment Packet". The patient enrollment forms need to be completed and returned to PacWest prior to our providers being scheduled for their first visit.

Patient Enrollment Steps:

- Enrollment forms to fax us can be printed off our website or a PDF form may be requested by emailing us at **officeadmin1@pacwesthc.com**
- Please note an essential component is a current medication list along with current insurance information and any POA documentation if applicable
- Once enrollment form is received patient and/or guardian will be contacted by our staff to arrange initial visit with our provider

If you have any questions concerns or needs please reach out to us at one of the following
